PHILOSOPHY

“Two disciplines. One physician. One standard of care.”

Founding Principles

Monti Institute was founded on a single conviction: neurological care and aesthetic medicine are most effective when practiced together, by a physician who understands both. Every protocol begins with evaluation. Every outcome is measured against clinical evidence — not patient preference alone.

PERSONALIZED PATHWAY

Find Your *Care Pathway*

Four questions. A personalized recommendation. Understand which division of care — neurological, aesthetic, or both — is right for your situation.

STEP 1 OF 4

What brings you to Monti Institute?

Select the option that best reflects your primary reason for visiting.

N

Migraine or headache care

Frequent headaches, light sensitivity, or neurological symptoms affecting my daily life.

A

Aesthetic medicine

Facial refinement, injectables, or skin health — with a physician-led approach.

B

Both — I'm interested in the integrated approach

I want to explore both neurological care and aesthetic treatments.

△ PRE-LAUNCH DEVELOPMENT NOTICE & LEGAL DISCLAIMER

This website is currently under development
and is not yet approved for public release.

Under Development. This website is currently undergoing active development, technical testing, and final administrative review prior to its official launch. The content, credentials, clinical descriptions, service information, and all other materials presented on these pages are provisional in nature and have not been fully proofread, independently verified, or approved for final publication. Some content may reflect preliminary drafts, placeholder text, or technical inaccuracies that remain subject to revision.

No Medical Advice. Nothing contained on this website — including but not limited to clinical descriptions, treatment protocols, provider credentials, patient information, or any other content — constitutes or should be construed as medical advice, a medical diagnosis, a clinical recommendation, or a treatment plan. All content is provided for general informational and illustrative purposes only and is not a substitute for professional medical evaluation. Always seek the guidance of a qualified and licensed healthcare provider for any questions regarding a medical condition.

No Practitioner–Patient Relationship. A formal practitioner–patient relationship with Monti Institute of Neuro Aesthetics or any of its affiliated practitioners is established solely upon the completion of an in-person clinical consultation with a licensed provider and the execution of appropriate clinical intake and consent documentation. Visiting this website, browsing its content, or submitting an inquiry through any contact form does not create a clinical, therapeutic, or advisory relationship of any kind.

Limitation of Liability. Monti Institute of Neuro Aesthetics, its founders, affiliated practitioners, employees, agents, and service providers expressly disclaim all liability for any inaccuracies, errors, omissions, or actions taken in reliance upon the content of this website during the pre-launch development phase. All information is subject to change and should not be relied upon as current, accurate, complete, or legally or clinically binding.

For verified clinical information, credentialing inquiries, or to schedule a formal consultation, please contact our team directly at admin@monti-institute.com. © 2025 Monti Institute of Neuro Aesthetics. All rights reserved.
